

This pen and pencil have been engineered to give years of unequalled writing pleasure . . . years of complete writing ease. Both are fine, precision-made writing instruments embodying exclusive and practical mechanical improvements in fountain pen and mechanical pencil design.

Since 1900, the great advancements in fountain pen design have been conceived and produced first by MOORE

MATCHING PENCIL. The Moore Pencil, matching the Fingertip Pen in gift sets, has *positive top action*. Hold pencil vertically, press down the top, and a perfect point is expelled. Six months supply of leads are provided, and feed themselves automatically, one after another. When a new supply is needed, remove top, remove eraser cap, and fill chamber with any standard "fine" lead. Replace eraser cap and top, hold vertically, and press top down three or four times.

Filling the Fingertip PEN

1. Dip nib in ink until hole or "heart" is covered.
2. Lift lever 2 or 3 times.

3. Close lever and count ten *before* taking nib out of ink.
4. Wipe point section clean.

When changing brands of ink, be sure to flush pen perfectly clean with cold water before refilling.

FOR YOU WHO CHERISH FINE THINGS. YOUR...
