2010 RETAIL CATALOG

## Brand Statement

Cross luxury writing instruments are renowned for their distinctive style and superior quality. They have long been symbols of success and achievement, and no longer serve as simply functional writing instruments. With an increased focus on fashionable colors and stylish designs, Cross pens and accessories are the perfect way to finish off your daily wardrobe, or add that extra flair to an evening on the town. As a leading fashion-focused Writing Instrument and Accessories brand, blending the timeless appeal of its brand heritage with contemporary design, detailing, and finishes, Cross appeals to young and old, style-conscious and traditional alike.

True industry veterans with more than 160 years of experience in designing and manufacturing Quality Writing Instruments, Cross continues to lead the way in defining, expanding, and invigorating the category. Brand extensions such as luxurious leather accessories, cufflinks, and elegant timepieces and eyewear have broadened the company's audience, helping establish a devoted following across more than seven generations of pen and accessory consumers.

Fine craftsmanship, innovative design, and impeccable customer service have long been hallmarks of Cross quality writing instruments. The commitment to these tenets has provided a stability that has allowed Cross to evolve as a brand: transforming from a small family-owned pen company in the mid 1800s into the style-driven global pen and accessory brand it is today. All within the confines of the smallest state in the US — in the bucolic New England town of Lincoln, Rhode Island.

## FASHION COLLECTION

## CROSS MASQUERADE

A fashionable design inspired by the Art Nouveau era. The swirling peacock-feather pattern shimmers over ivory pearlescent lacquer, and is enhanced with accents of silvery engraving that add intrigue and dimension. The pen is accented with lustrous chrome appointments, a graceful curved clip and jewelry-like center band. Behind its fancy dress lies a well-balanced medium diameter barrel and lifetime of Cross engineering.

CARDINAL RED

A flight of fancy, in glowing shades of red, burgundy and plum artfully etched with silvery swirls for rich depth and dimension.  
**Ballpoint Pen #AT0082WG-58, \$65.00**

PEACOCK GREEN

Like a finely patterned brocade, the surface shimmers in a mélange of radiant green and blue, etched with silvery engraving for incomparable texture.  
**Ballpoint Pen #AT0082WG-59, \$65.00**

RAVEN BLACK

Mysterious as a night sky, bewitching black and grey plumes are offset with bright iridescent blue and shining engraving.  
**Ballpoint Pen #AT0082WG-60, \$65.00**

# CROSS SENTIMENT

Our charming new design brings romance to everything from love letters to daily lists. Adorned with a removable jewelry-like heart-lock charm and accompanied by an interchangeable key charm, Cross Sentiment can also be accessorized with a meaningful charm from your own collection. The exquisite hand-polished, high-gloss or pearlescent lacquer finishes are accented with a glittering pavé-textured center band, and each is accompanied by a complimentary velvet drawstring pouch for safekeeping.

**EBONY BLACK**

As classically chic as a little black dress, with polished chrome accents and interchangeable charms.

## Special Finishes

Cross luxury writing instruments are offered in a variety of fashionable colors and finishes, each with their own distinct characteristics:

APOGEE, TITIAN RED LACQUER

### Hand-Polished Lacquer Coating

Lacquer coatings, comprised of organic resins (polyester, acrylic and urethanes) and pigments, provide the vibrancy, depth, and smooth texture of stunning jewel-like finishes.

ATX, BASALT BLACK

### Powder Coating

Powder coating is typically more durable than liquid (lacquer) coatings due to its relative thickness. Finely ground dry particles (epoxy, polyester, etc.) are electrostatically charged and sprayed onto brass shells, giving a softer yet textured feel to these understated matte finishes.

TECH3, SATIN CHROME

### Satin Finish

Satin finish is produced by sandblasting the surface of a brass or aluminum shell followed by decorative chrome plating. The mechanical abrasion achieved by sandblasting provides a smooth matte finish to the otherwise shinier feel of chrome-based outer layer.

CLASSIC CENTURY, TENDER ROSE

### Lumina

Lumina coating incorporates dual lacquer technologies, giving the product a charming soft luminescence. The base coat provides the great adhesion to the brass and the lacquered topcoat lends a sophisticated sheen of mica – the result is a perfect blend of depth and reflection.

CROSS TOWNSEND, LUSTROUS CHROME

### Chrome Plating

Chrome plating is an electrochemical process where metallic chrome is deposited on caps, barrels and appointments (cap rings, clips and points). The process produces highly wear-resistant finishes that maintain their brightness throughout the life of the product.

C-SERIES, CHAMPAGNE

### PVD

PVD (physical vapor deposition) is a process by which an alloy of super hard Titanium is applied to the metal substrate of our pens. Color varieties (blue, black, champagne) are produced from various alloys of titanium.

CROSS AFFINITY, JEWEL BLUE

### High Gloss, Crystalline Resin

Resin is a process of heated compounds that can be formed and shaped. The pen silhouette is formed and shaped with precision balance for writing ease. This high gloss crystalline resin offers a unique jewel-like sparkle that enhances the pen's appearance and provides a smooth texture.

## Precious Metals

Cross offers a variety of Precious Metals in our Classic Century, Century II, and Townsend product lines. These collections are made from the finest and most precious metals on earth. From Sterling Silver to Platinum Plated to 10K, 14K, and 18K Gold, both Filled/Rolled and Solid, these items have long served as the hallmark of Cross craftsmanship, beauty, and renown. Some points of differentiation in the Precious Metals Collection:

### **Sterling Silver**

Sterling silver must contain 92.5% silver. The balance can be any other material, but is mostly copper for increased durability. These pens have a softer feel to them, and carry an elegance that grows with age.

### **Platinum Plated**

A contemporary update to the 100 year old technique of electroplating, the use of Platinum provides a clean, universal shine that is unmatched in any other precious metal. Perhaps the most in-demand of the precious metals collection, Platinum offers elegance, style, and versatility.

### **Rhodium**

Rhodium, like Gold is a noble precious metal with a bright white color. It is non tarnishing and will remain shiny throughout its life.

### **10K Gold**

Gold composition is based on a 24 part scale. 10K Gold contains 10 parts Gold and 14 parts other metals, thus is 41.7% Gold. Due to this mix in composition, 10K gold is both harder than other Gold designations and also less precious, and is easily recognized in our Townsend, Century, and Century II lines by the full-size black lacquer dome on the top of the cap.

### **14K Gold**

Containing 14 parts Gold and 10 parts other metal(s), 14K Gold meters out at 58.3% pure Gold. The most popular and versatile composition, this finish contains a slight rose hue and is notable by the half-sized black lacquer dome on the top of the caps in our Century and Century II collections.

### **18K Gold**

The closest Cross offers to pure 24K Gold, our stunning 18K Gold offerings are 75% pure Gold. A much softer metal than the other Gold offerings in our line, its shade is the Gold most commonly associated with the metal itself. Notable by a single black lacquer band around the top of the cap in our Townsend and Century lines. The 18K offerings mark the finest in quality and are true heirlooms.

### **Gold Filled or Rolled Gold**

Also called gold overlay. A layer of either 10K, 14K or 18K Gold is permanently bonded by heat and pressure to the surface of a support metal, then rolled or drawn to a prescribed thickness. The result is a higher Gold content than would be achievable through Gold Plating, and due to the strength of the metal to which it is bonded, is actually stronger than solid Gold. Gold Filled provides the look and feel of solid Gold, but without the natural softness and sensitivity of this precious metal.

### **Solid Gold**

The cap and barrel of the pens are 100% 18K Gold. While the content of the Gold itself is not pure Gold in our 18K offerings, the pen shells are made of 18K Gold.

### **Heavy Gold Electroplate**

Heavy gold electroplate is an electrochemical process where metallic gold is deposited onto brass cap and barrel shells. This process produces a highly wear-resistant finish that is three times the thickness of standard electroplated gold.

## Tip Technology

Cross luxury writing instruments are available in a wide variety of tips, to suit many consumers' needs. Depending on the item, the tip technologies available to our consumers are:

### Ballpoint Pen

- The Ballpoint is the most popular tip technology and in many ways the simplest. A Ballpoint pen uses a small rotating ball made of carbide to disperse ink as you write. This ball acts as a buffer between the material you're writing on and the ink inside the pen. The ball rotates freely and rolls out the ink as it is continuously fed from the ink reservoir.
- Ballpoint Pens are not capped, but instead retract and store via a rotating mechanism in the barrel.
- Low maintenance and easily refillable, the Ballpoint Pen is the option for the everyday pen user.

### Selectip® Rolling Ball

- Our most versatile tip technology is proprietary to Cross, and is known as Selectip Rolling Ball. A Selectip allows you to "select" the kind of refill you want to use in this writing instrument from the following options:
  - Rolling Ball (a mix of Ballpoint ease of use and the elegance of Fountain Pen ink-flow)
  - Jumbo Ballpoint (Ballpoint technology with a bolder, fuller write-out)
  - Document Marker (or Hi-Lighter)
  - Porous-Point (most commonly known as a Flair or Marker Point)
- The inks in a roller ball are generally aqueous based. This results in a smoother, fluid (or wet) lay-down of ink similar to a Fountain Pen. Aqueous based inks, due to their fine fluidity, also tend to dry out quicker, thus care must be taken to always cap Selectip pens between uses.
- Unlike Ballpoint Pens, Selectip Pens have a separate cap which prevents the ink from drying during storage.

### Fountain Pen

- One of the oldest styles of writing instrument, fountain pen nibs actually adapt to your own personal grip and writing style over time, creating lines on the page that — like your signature — are all your own. Ink flows by capillary action from an ink reservoir to the fountain pen nib, which is the delicate split metal mechanism which contacts the paper. A favorite of the true connoisseur, fountain pens are each a work of art in their own right.
- Cross offers nibs in four widths: Broad, Medium, Fine, Extra Fine
- Six different materials (in descending order of preciousness):
  - 18K Gold (Townsend, Century II)
  - Rhodium Plated Solid 18K Gold (Apogee)
  - 18K Gold/Rhodium Plated (Townsend)
  - Rhodium Plated 18K Gold (Century II, Sauvage, C-Series)
  - 23K Gold Plated (Townsend, Century II)
  - Stainless Steel (Townsend, Century II, ATX, Affinity, Sentiment)
- Cross Fountain Pens support two different feed systems:
  - Cartridge, or a replaceable capsule full of ink which is inserted into the neck of the nib.
  - Converter, which allows the writer to load liquid bottled ink and insert it into the writing instrument.

### Pencil

- Cross mechanized pencils are offered in a select number of SKUs and utilize varying sizes of graphite rod lead. The size of the mechanical pencil's line is determined by the width of the lead.
- For the traditionalist as well as professionals in drafting and drawing fields, Cross Pencils offer fine quality and a lifetime mechanical guarantee.

## STANDARD ENGRAVING

All Cross writing instruments have an area on the cap for engraving. Standard caps accept one line of engraving. The barrel section of writing instruments cannot be engraved.

Engraving methods for precious metal caps include drag, deep-cut without color, deep-cut enamel filled and laser.

Drag engraving offers a choice of block, script and double-line Gothic type styles.

For deep-cut, enamel-filled engraving, type styles include block, script and Times Regular. Color-fill options vary by product. 18K, 14K and 10K Gold Filled/Rolled Gold writing instruments may be color-filled with black, blue, red or green. Sterling silver, silver plated, platinum plated, Medalist and chrome plated finishes accept gold tone. Lacquer finishes with gold plated appointments are color-filled with gold tone. Lacquer and satin finishes with rhodium or chrome plated appointments are filled with silver tone.

Laser engraving on Verve Selenium Blue appears as gold tone. This finish may also be personalized with deep-cut, color-filled engraving with silver tone. Block and script type styles are available. Laser-style engraving does not accept color-fill.

For standard engraving, production lead time is three working days. Please allow ten working days for personalized signature engraving.

## STANDARD ENGRAVING ON DESK SET NAMEPLATES

Desk set nameplates can be engraved in block, script and double-line Gothic. Nameplates do not accept color-fill.

# LEATHER DECORATION INFORMATION

Selected Cross Leather Collection styles are available for custom monogram debossing. Debossing is a decoration technique that delivers a permanent imprint of the recipient's initials into the surface of the fine full-grain leather, and is situated in varying locations depending on the individual style.

## **WRITING INSTRUMENT FULL PERPETUAL WARRANTY**

All Cross writing instruments and desk set penholder mechanisms are unquestionably guaranteed against mechanical failure, regardless of age. Any Cross product or part requiring service under this warranty will be repaired or replaced at no charge when received at our factory from the consumer (postage and insurance are the responsibility of the consumer, and shipping and handling fees may apply). Any such product that is no longer in production and cannot be repaired will be replaced with a comparable Cross product. Leads, erasers and ink refills exhausted in the course of normal use, and emblems and other customized decoration, are excluded from this warranty; also excluded are fountain pen nibs and other parts damaged from impact, unreasonable use or obvious abuse. The Cross guarantee extends our assurance of a lifetime of writing pleasure to every owner of a Cross writing instrument.

This warranty gives you specific legal rights, and you may have other rights which vary from state to state or jurisdiction to jurisdiction.

Warning: Pen caps can obstruct breathing. Keep out of mouth. This product is not intended for children.

## **LEATHER FULL ONE YEAR WARRANTY**

All Cross personal accessories are unquestionably guaranteed against mechanical failure and defects in workmanship for one year from the date of purchase. Any Cross accessory or part requiring service under this warranty will be repaired or replaced at no charge when received from the consumer at our factory. Postage and insurance are the responsibility of the consumer, and shipping and handling fees may apply. Any such product that is no longer in production and cannot be repaired will be replaced with a comparable Cross product. Logos, engraving and other decorations are excluded from this warranty, as are parts damaged from impact, unreasonable use or obvious abuse and materials which become worn in the course of normal use.

This warranty gives you specific legal rights, and you may have other rights which vary from state to state or jurisdiction to jurisdiction.

## **CROSS TIMEPIECE LIMITED TWO-YEAR WARRANTY**

This Cross timepiece is warranted by Cross to the original owner to be free from defects in material and workmanship under normal use for a period of two years from date of receipt. During the warranty period the product will be repaired or replaced (with the same or similar model) at our option, without charge for either parts or labor.

Excluded from this warranty are timepiece bracelet, strap, crystal, case, battery, any timepiece accessories, emblems or customized decoration and timepieces or parts damaged from impact, unreasonable use or obvious abuse. Damage not resulting from a defect in material or workmanship, damage caused by tampering or damage resulting from repairs not performed by Cross are not covered by this warranty. Cross disclaims liability for consequential damages for breach of any express or implied warranty, including warranty of merchantability, with respect to this timepiece. Some states do not allow the exclusion or limitation of consequential damages, so the above limitation may not apply to you.

Cross limits the duration of any implied warranty, including the implied warranty of merchantability, to two years from the date of receipt. Some states do not allow limitations on how long an implied warranty lasts so the above limitation may not apply to you.

This warranty gives you specific legal rights and you may also have other rights, which vary from state to state and jurisdiction to jurisdiction.
